Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicants bring to the attention of the Examiner the documents listed on the attached PTO 1449. This Information Disclosure Statement is being filed together with this application.

Copies of all listed documents are enclosed, except for U.S. published patent applications and issued patents. The above-identified patent application was filed after June 30, 2003, and as indicated at 1276 OG 55, submission of U.S. published patent applications and issued patent copies is not required with this Information Disclosure Statement.

Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form and returning it to Applicants' undersigned representative.

The following applies to the non-English language documents:

1. Ekkehard Bölsing et al.: An English language abstract appears on page 1932 of this document. The document also contains understandable chemical formulas.
2. S.H. Poghosian et al.: An English language abstract appears on page 265 of this document. This document also contains understandable chemical formulas.
3. L. Damuynck et al.: An English language abstract appears on page 719 of this document. The document also contains understandable chemical formulas.
4. Heinz Rischke et al.: An English language abstract appears on page 3106 of this document and the document is cited on page 51 of the specification. The document also contains understandable chemical formulas.
5. Lionel Chevolot et al.: This document contains understandable chemical formulas. The document is also mentioned on page 52 of the specification.
6. EP 0 089 926 A2 and A3: A Derwent abstract of this document is enclosed. This document also contains understandable chemical formulas.
7. FR 2 478 639: A Derwent abstract of this document is enclosed. This document also contains understandable chemical formulas.
8. FR 1 524 953: This document contains understandable chemical formulas.
9. FR 1 209 650: This document contains understandable chemical formulas.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

DT04 Rec'd PCT/PTO 0 1 OCT 2004

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
